REFERENCE

Available upon request.

PROFILE

I have nearly 10 years of experience in UX design and Learning & Education development in Canada, South Korea, the EU, and East Asia. I excel at taking complex information sets and simplifying them into palatable, bite-sized pieces.

I have a wealth of experience with user research, wireframing, prototyping, usability testing, and interaction design.

My former career was as a first responder in major metropolitan hospitals; I have crisis and non-crisis intervention training, so I excel under pressure.

WORK EXPERIENCE

Senior UX Designer, Learning & Education 2023 - 2025
Threshold Training Associates | Prague, CZ

- Developed user-centred learning programs for skills-based development in business, energy, banking, and more.
- Used agile methodology to design learning programs for cross-functional collaboration.

Education & Learning Designer, S.E.T.A 2018 - 2024
Dalhousie University, Dept. of Medicine | Halifax, Canada

- Developed information architecture for medical programs.
- Coordinated and conducted user-centred research projects with medical professionals in various specialisations.
- Provided consultations for modernising curricula and UX.

Lead UX & Learning Designer, International Education 2022 - 2023
Immigration Services Association of Nova Scotia | Canada

- Developed a Canada-wide research project aimed at facilitating migrant integration.
- Designed and developed eLearning programs/software designed to help integrate newcomers into the Canadian job market.

Lead UX, Education & Learning Designer (Medtech) 2018 - 2022
Tobenstein Technologies | East Asia / Canada

- Developed and conducted user research projects, user profiles, etc.
- Designed wireframes which were developed into working prototypes.
- Designed user-centered interfaces for prototypes.
- Provided consultations and product reviews to address user pain points.

Junior UX Designer, Education & Learning 2017 - 2018
KNOX Academy | South Korea

- Developed information architecture for proprietary eLearning software.
- Focused on interaction design, user interface, and responsive design.
